

Onboard sprayer

Because of higher demand for low moisture carpet cleaning, CCI (Carpet Cleaner Industries) has created an onboard sprayer for its line of counter-rotating brush machines. The company's existing models can be upgraded with the sprayer and it allows users to spray cleaning agents directly from the machine.

The sprayer can be used for both interim and deep cleaning, bringing time savings says CCI. www.cciaustria.com

A large advertisement for the 'World's Best Low Moisture Carpet Cleaning System'. On the left, a green vertical banner contains the 'CARPET CLEANER' logo at the top, followed by the headline 'The World's Best Low Moisture Carpet Cleaning System' in white text. Below the headline is a list of features: '✓ Dry Cleaning Compound', '✓ Carpet Cleaning Sponges', '✓ Encapsulation', '✓ Counter Rotating Brush Machines', and '✓ Onboard Sprayer'. At the bottom of the banner is the website 'www.cciaustria.com'. To the right of the banner, a woman in a black dress and white shirt is operating a carpet cleaning machine on a purple carpet in a modern office lobby. At the bottom right of the advertisement, there are four circular logos: a green one with a recycling symbol, a white one with a horse, a green one with a leaf, and a blue one with the text 'ISSA MEMBER'.
